I figure this is Dave's call, so I'm OK with the change. Somehow I must have missed this in finalizing the technical memo.

Dana,

I found a few things (in track changes) on the two attached documents. The most important one is the deletion of the recommendation for OEPH to do biomonitoring. I thought we had already taken it out. It just seems like this letter and the audience to which it is addressed is inappropriate for that particular recommendation.
